

The Bible, Race, and Racism #3

“Standing Up for Life”

selected Scriptures

“Genocide” is the deliberate and systematic destruction of a racial, political, or cultural group.

“Genocide” has been linked to “abortion” because a disproportionate number of babies are aborted in America.

The Historical Record of Genocide in the Past

For all of recorded history, political leaders have slaughtered untold numbers of people in wars, genocides, and massacres.

The Bible records two attempts of genocide: the killing of babies in Exodus 1 and the killing of Jews in Esther 3.

Wars and genocides took more than 200 million lives in the twentieth-century alone!

The Horrible Reality of Genocide in the Present

Since the Supreme Court legalized abortion on demand in 1973, nearly 64 million abortions have been performed in the US, with more than 1.6 billion worldwide.

Planned Parenthood has targeted the black community from its inception and there are five times more black babies aborted than white babies (and ten times as much as Hispanic babies).

The Heartfelt Response of Genocide by God’s People

Psalm 139:13-14; Jeremiah 1:5 - God formed babies in the womb.

Exodus 21:22-25 - Unborn babies were protected in God’s law.

Leviticus 18:21 - Abortion is like sacrificing babies to idols.

Proverbs 24:11 - “Rescue those being taken off to death...”

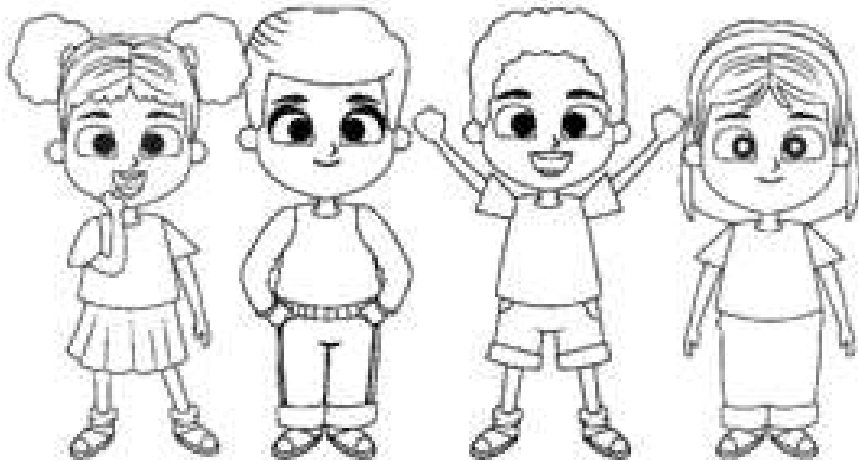

Abortion is an issue all ethnic groups should stand against.

Word Search - Psalm 139:13-18
